

Subject Construction Careers Foundation appropriation

Authors Greenman and others

Analyst Anna Scholin

Date February 22, 2021

Summary

This bill appropriates \$375,000 in fiscal year 2022 and the same amount in fiscal year 2023 from the workforce development fund for a grant to the Construction Careers Foundation to provide year-round educational and experiential learning opportunities for teens and young adults that lead to careers in the construction industry. This is a onetime appropriation and programs and services supported by the grant must give priority to individuals from groups that are economically disadvantaged or historically underrepresented in the construction industry.

The Construction Careers Foundation received prior appropriations for similar work of \$375,000 in fiscal years 2020 and 2021 and \$1,000,000 in fiscal years 2018 and 2019.
